Certification to practice as an Enterostomal Therapist in the Commonwealth of Virginia.

Sentara Obici Hospital, a 150-bed acute care hospital, is located on Godwin Boulevard in Suffolk. While it opened its state-of-the-art facility in 2002 and merged with Sentara Healthcare in 2006, the hospital continues a 50-year tradition of providing residents of Suffolk and Western Tidewater with patient-centered care in an environment that focuses on healing.

Sentara Healthcare operates more than 100 care giving sites, including eight acute care hospitals with a total of 1,911 beds, nine outpatient care facilities, seven nursing centers, three assisted living centers, nine advanced imaging centers and about 380 primary care and multi-specialty physicians. Sentara also offers a full range of award-winning health coverage plans, home health and hospice services, physical therapy and rehabilitation services, including Nightingale - the region's first air ambulance service.

Sentara also is a national leader in heart and kidney care, stroke care, infection prevention and was the first in the nation to pioneer and develop the eICU®, a remote monitoring system for intensive care. Striving to improve the wellness of the community, Sentara continues to participate in national and international research trials as a means to increase the medical options available to patients well into the future.

Sentara Healthcare has earned the American Cancer Society "Excellence in Workplace Tobacco Control" award for its efforts. Dave Bernd, Sentara's chief executive officer, states, "We are excited to be recognized by the American Cancer Society. We believe a Tobacco Free Environment sends the right message to our employees, patients, visitors and vendors. We believe Sentara's mission, to improve health everyday, is best led by example."
