

# **NORTH CYPRESS MEDICAL CENTER**

## **Director, Wound Care**

Accountable for clinical and administrative functions of the Wound Care Outpatient Clinic and Hyperbaric Medicine Program. Supports Inpatient Nursing services with clinical oversight for complex wound care needs. Maintains a high level of collaboration with members of the medical/professional staff and with inpatient nursing leadership. Provides direct supervision of the departmental clinical team. Serves as a professional role model to staff and maintains a high level of professionalism and caring demeanor in his/her respective department. *Requires TX RN Licensure, Bachelor's Degree, current BLS and ACLS. Excellent human relations and oral/written communications skills; experience in hospital/health care environment with ambulatory clinic experience preferred; managerial skills desired; one to two years supervisory experience required.*

## **RN - Wound Care**

Performs initial and follow up visits for patients with wounds in the in-patient and out-patient settings. Works closely with the wound care team and physicians to develop treatment plans and with physicians and case managers for in-patient discharge planning regarding wounds and ostomies. Offers coverage for wound care nurses. May perform non-patient care tasks as needed, including assisting with the inventory and stocking of wound care carts and/or out-patient treatment rooms. *Requires current Texas RN License, BLS and ACLS. Wound Care certification a plus. Documentation with EMR systems preferred.*
